

# Richpeace Automatic 360° Rotary Single Needle Sewing Machine(VERTICAL Hook-Garment)

360° Rotary Head, No difference between forward stitch and reverse stitch

## Features

- 1. Individual drive rotating head, can realize rotary sewing within 360° to ensure precise and handsome stitches.
- 2. Pneumatic lifting sewing head guarantees enough working space, improving machine safety.
- 3. Automatic sewing head oil supply, less noise, long machine service life.
- 4. New driving rotary platform, high precision, big torque, dust-proof and waterproof.
- 5. 10 inches HD industrial flat panel display, humanized operation interface, easy to learn.
- 6. Full servo motor control, high stability, guaranteeing good sewing quality.
- 7. Large storage, no limitation of stitch file storage.

## Application

Clothing fabric sewing, such as single layer cloth material, double layers cloth material with thin cotton, down jacket etc.

## Models

Models	Sewing Area	Weight	Machine Size(L×W×H)
RPAS-LM (HM)-R-1-900×600-A-IS2-VR2-LH50,RH360,UTC-1P220	900mm×600mm	700kg	2200mm×2100mm×1700mm
RPAS-LM(HM)-R-1-1200×800-A-IS2-VR2-LH50,RH360,UTC-1P220	1200mm×800mm	950kg	2845mm×2700mm×1700mm

## Parameters

Head Type	360° Single Needle Rotary Head	Operation Box	10 inch touch screen all-in-one control system
Max. Sewing Speed	2500r/min	Frame Pressing	Pneumatic pressure frame
Stitch Length	0.1mm-25.4mm	Driving Mode	Servo motor driving
Auto Oil Supply	Sewing Head/ Rotary Hook box	Transmission	Belt+linear guide rail
Thread Buckling	Electromagnet	Stitches Capacity	4G
Thread Trimming	Pneumatic thread trimmer	Pattern reading	USB port
Head Lifting Device	Standard(50mm)	Thread-end Clamping	Behind the head
Presser Foot Lifting Height	15mm	Power Supply	Single-phase AC220V, 50/60Hz
Thread Breakage	Upper thread break detection / bobbin thread counting by length or by pieces	Power	3.8kW
Template Recognition	Bar code recognition/Template in place recognition	Air Supply	0.6Mpa, 1.7L/min
