

Richpeace®

Richpeace Manual Earloop and Headband Welding Machine

Application

Application for Manual earloop welding for masks.

Technical Features

1. Equipped with 800W ultrasonic device plus big pneumatic supply capacity. Firmly fixed, precisely welding. Welding with timing controlling without power level adjustment.
2. Suitable for various thickness mask material welding, easily to achieve various international standards on welding requirement.
3. With laser infrared point indication, easy operation and precise welding spot.
4. Simple and beautiful looking. Equipped with foot wheels, easily for moving machine from one place to another.
5. Intelligent counting function could record the welded mask numbers effectively.

Parameter & Configuration

Main Parameter			
Model	RFPF-NF-UB-1-175×95-SGSF-U1-NA-1P220		
Mask Type	Medical Mask, Cup Mask, Fish Mask, Flat Fold Mask, Duckbill Mask, and mask with headband		
Speed	8-12 pcs/min.	Welding Diameter	10mm
Processing Mode	Ultrasonic Welding	Material	PP Nonwoven Composite Fibre
Air Pressure	0.6 MPa	Voltage	Single Phase 220V/50Hz Three Phase 380V/50Hz
Power	0.8 kW	Installation Area	1000mm×530mm×1050mm (L×W×H)
Main Configuration			
Control System	RICHPEACE	Pneumatic Component	SMC/FESTO
Ultrasonic Generator	220V, 35kHz, 800W	Bearing	NSK
